

Nature Art

Environmental Art

Define: the production of artistic works intended to enhance or become part of an urban or other outdoor environment.

Why is environmental art
important?

What do you see?

Our Natural Resources- Gone

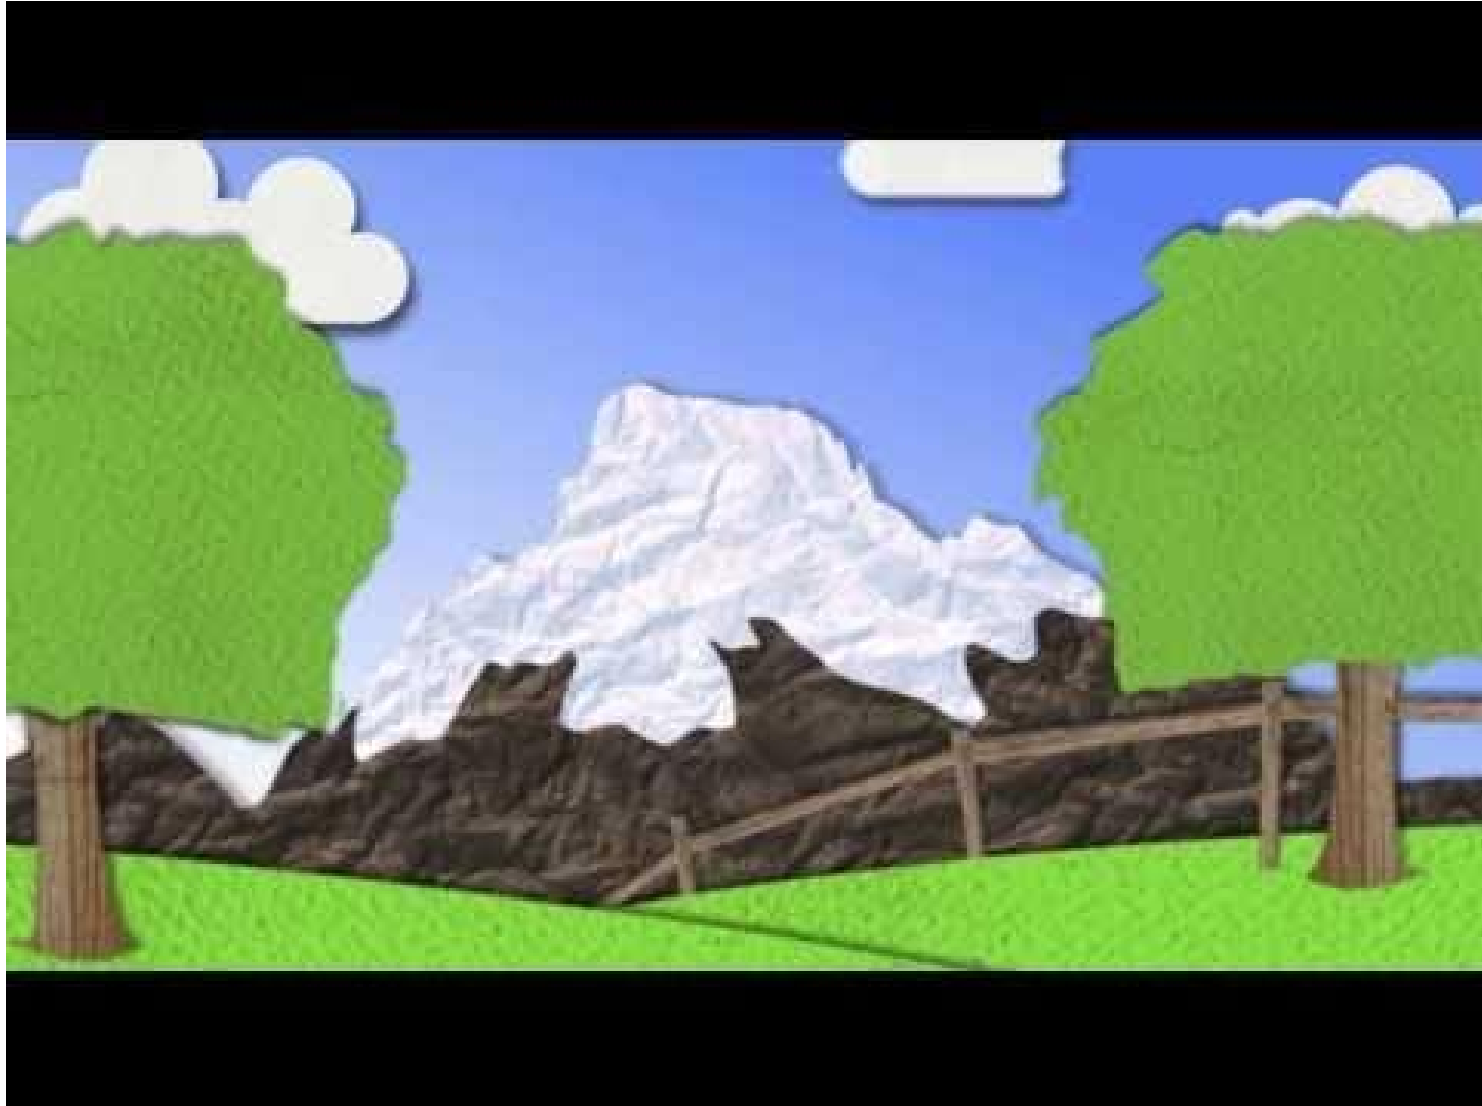

City of Garbage

What are some ways to help?

Ideas...

What we can do as artist

- Create something from our natural environment
- Use the gifts earth already has.
- Be proactive in creating and preserving our world.

Some examples people have done...

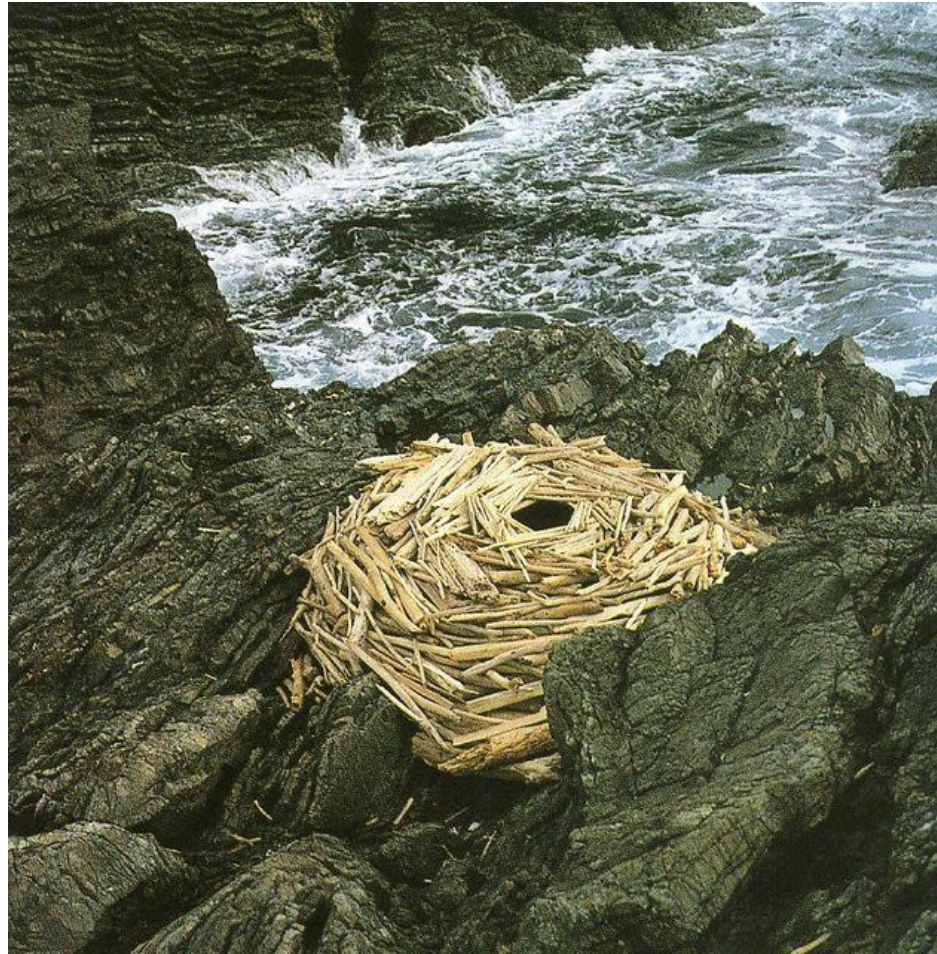

Andy Goldsworthy

Andy Goldsworthy Tips

Use simple shapes for
environmental art

Art Assignment

We will be creating environmental sculptures like Andy Goldsworthy.

There are three different environmental sculptures you will make. One of the sculptures that you will make will be in groups of three, assigned by Mrs. Campos. The other one is a creation of your own.

You may only use Natural objects- Nothing else

Helpful Hints

Remember: Your work should not be complex

Keep in mind the location: You want it to be seen

Simple Geometric and organic shapes are easy to understand and will be most effective

How to start

You will create a meeting spot for your group

You will go outside and look around at spots that might be a good place to create your artwork. Remember, you want it to be seen.

You will create thumbnails

You will meet with your group and create a sculpture off of the best idea.

What needs to be done today?

Your group sculpture!

Your group Rubric filled out

Have a lot to do- Don't waste time...
